

Premium Shotshells

KEMEN

Shells

Kemen Ammunition Inc is pleased to offer a very comprehensive range of shotshells to suit all disciplines of competition shooting and hunting.

They are available in 12ga., 20ga., 28ga. and .410 bore with a variety of different loads.

All Kemen shells are loaded with 5% antimony and are loaded using a fully integrated manufacturing process, which ensures quality and consistency shot after shot.

Features

- A price/performance ratio no others can match.
- Designed specially for competition shooting in the USA.
- Comfortable recoil for high scoring.
- Velocities, which provide optimum patterns.
- Clean burning single based powders leaving no residue.
- Made to Kemen's specifications by UEE, one of the worlds largest manufactures.
- Ultimate quality control procedure and equipment.
- Fully integrated manufacturing procedure including powder, primers, wads and hulls.
- Reloadable Reifenhousser plastic hull.
- 5% antimony polished magnum shot.
